HOW TO PREPARE FOR A MOCK INTERVIEW

It is helpful to provide a copy of your résumé and the job description for the interviewer to prepare questions related to the purpose of your interview. You may want to wear your interview clothing to ensure the best professional presentation. Be prepared with questions you might ask the interviewer.

INTERVIEWSTREAM

The Career Center offers software to help you practice interview skills in the privacy of your home. Many faculty and instructors use this tool as a mock interview assignment, and this platform is especially helpful right now as more of your interviews will take place via phone or video than in-person. InterviewStream uses your phone or computer's webcam to facilitate a pre-recorded set of interview questions. You can review your video responses or share with someone to give you constructive feedback and improve your interviewing skills.
